

# Capability Statement

FleetPath Technologies Pty. Ltd.

---

## **Who Are We?**

FleetPath Technologies is a leading technology company based in the Mackay/Bowen Basin region, dedicated to servicing diverse industries including Mining, Oil & Gas, Agriculture, and Ports. We specialize in delivering skilled labour for the design, execution, and commissioning of projects in Radio Communications, Wireless Backhaul, IP Networking, Fleet Management Systems, Automation, Auto Electrical, Mining Technology and Spare Parts.

## **What Do We Do?**

At FleetPath Technologies, we partner with our clients to ensure that the technology solutions we provide not only meet but exceed their expectations, ultimately adding substantial value to their businesses. We pride ourselves on offering "turnkey" solutions tailored to our clients' unique needs—no project is too big or too small, and we always prioritise our customers' best interests.

## **Our Vision**

The technology landscape can often feel overwhelming. Our vision is to simplify this experience for our customers by providing modern technology solutions that are easy to understand, implement, and maintain. We believe that the right technology, implemented effectively and supported professionally, can transform a business. Let FleetPath Technologies guide you through the complexities of technology implementation, helping you to harness its full potential.

## Our Values

- **Integrity:** We uphold the highest standards of honesty and transparency in all our interactions, ensuring trust and reliability in our partnerships.
- **Excellence:** We are committed to delivering high-quality solutions and services that consistently exceed industry standards and client expectations.
- **Innovation:** We embrace new ideas and technologies, striving to develop creative solutions that drive efficiency and progress for our clients.
- **Collaboration:** We believe in the power of teamwork, working closely with our clients and partners to achieve shared goals and success.
- **Customer Focus:** Our clients are at the heart of everything we do. We listen to their needs and tailor our solutions to support their business objectives.

## Our Capability

FleetPath Technologies employs some of the brightest minds in technology. Our expertise encompasses a wide range of fields:

### Radio Communications

We provide advanced radio communication systems that meet diverse operational needs, from field messaging to cybersecurity solutions. Our team of skilled Radio Technicians is equipped to design and implement systems tailored to your requirements.

### Wireless Backhaul

Our Wireless Technicians are experts in setting up reliable data transfer solutions, whether for small data packets or extensive office setups. We ensure seamless communication through various microwave links, overcoming the challenges of data transmission.

### IP Networking

Our Networking Technicians specialize in IP Networking, proficiently navigating complex terminology and technology. We deliver efficient and reliable network solutions that enhance your business operations, ensuring optimal performance.

### Fleet Management Systems

Transitioning from paper-based tracking to a sophisticated Fleet Management System is crucial for informed decision-making. Our experts guide you in implementing an integrated solution that provides accurate data, enabling your business to thrive.

## **Automation**

FleetPath Technologies is at the forefront of the automation industry, delivering innovative solutions that enhance efficiency and productivity. Our Automation Technicians ensure a smooth installation and ongoing maintenance, providing the support needed for successful automation.

## **Auto Electrical**

Our Auto Electrical team specialises in providing comprehensive services, including diagnosis, repair, and installation of electrical systems in a wide range of vehicles and machinery. We ensure that your equipment operates safely and efficiently.

## **Mining Technology**

We offer advanced solutions and services tailored for the mining industry, ensuring that your operations are efficient, safe, and compliant. Our expertise spans various aspects of mining technology, helping you optimise performance.

## **Spare Parts**

We provide a wide selection of spare parts to support the mining industry and other sectors, ensuring that your operations run smoothly. Our knowledgeable team can assist you in sourcing the right components to keep your equipment operational and minimise downtime.

## **IVMS Systems**

We provide Integrated Vehicle Management Systems (IVMS) that enhance fleet safety and efficiency. Our IVMS solutions offer real-time tracking, performance monitoring, and compliance reporting, helping you make informed decisions and improve operational effectiveness.

## **Conclusion**

With FleetPath Technologies, you gain a partner committed to empowering your business through cutting-edge technology solutions. Let us help you navigate the technology landscape and achieve your operational goals with confidence.
